

WALL PANEL MOUNTING SYSTEM

3 Piece system consists of two "J" channels and one "Z" channel.

GENERAL OVERVIEW

Screw bottom "J" channel to wall at the tac line shown, this channel supports the bottom lip of the wall pad. Screw the "Z" channel to wall at tac line shown. The top "J" channel slides over the top lip of the wall pad, and the lower lip of the "J" channel tucks behind the upper lip of the "Z" channel locking the wall pad into place.
